

Women In Construction Week

The focus of Women in Construction (WIC) Week is to highlight women as a visible component of the construction industry. WIC Week also provides an occasion for NAWIC's thousands of members across the country to raise awareness of the opportunities available for women in the construction industry and to emphasize the growing role of women in the industry. It is also a time for local chapters to give back to their communities.

NAWIC, No. 1 of RI Celebrated WIC Week 2018 at Building Futures. Members and supporter were welcome to set up booths representing their companies. Attendees were able to network, enjoy light fare, and listen to the round table discussion by ladies that had graduated from Building Futures and are now working in the field.

Traditionally WIC Week is held the 2nd week of March. WIC Week planning starts the fall prior, contact your President for more information.
