# Women, Money, and Financial Empowerment Seminar

Women face unique challenges and opportunities when it comes to managing our money and we are rising to the task by becoming more financially empowered.

In this interactive workshop, you will:

- Explore good money habits which will support you on your financial journey
- Learn the components and importance of net worth and an income and spending plan - because we can't
- improve what we can't measure!
- Create your own list of action items

Financial empowerment means being in control of your financial situation in the short and long term. Consider what awaits when you are empowered...

Better informed decision making

Less stress

Better relationships - personal and professional

More fun and ultimately a PLAN to live your BEST life fully funded!

Please bring your journal or notebook, an open mind, and eagerness to share and participate! We are so much better when we learn from each other. We got this!
